## **Professional appointments**

National Socio-Environmental Synthesis Center (SESYNC), Annapolis, MD

Data scientist (September 2019-present); Postdoctoral fellow (2018-2020)

- Model environmental impacts of food waste using input-output and nonlinear optimization
- Participate in SESYNC's postdoctoral immersion program, receiving training on socioenvironmental synthesis research
- Provide data science consulting for socio-environmental research teams, including data analysis, management, and visualization in R and Python
- · Support research users of a high-performance computing cluster
- Maintain the R package *rslurm*, and develop new features
- Maintain, update, and write content for SESYNC's cyberhelp website
- Develop lessons for data science curriculum and teach courses

#### Michigan State University (MSU), East Lansing, MI

2016-2018

Postdoctoral researcher, Department of Forestry

- Compiled, analyzed, and processed environmental and biodiversity datasets in R
- Fit spatial Bayesian models; did GIS analysis in R and GDAL
- Published three first-authored manuscripts and multiple co-authored manuscripts

## **Education**

#### University of Tennessee (UT), Knoxville, TN

2011-2016

Ph.D., Ecology and Evolutionary Biology

*Dissertation:* "Individual variation in plant traits drives species interactions, ecosystem functioning, and responses to global change"

#### University of North Carolina, Chapel Hill, NC

2005-2009

B.S. with highest distinction, Environmental Science

# **Skills and languages**

- Data processing, visualizing, and analysis in R, including tidyverse and RMarkdown
- Bayesian modeling with Stan and JAGS
- Spatial analysis and modeling with GDAL and GIS libraries in R
- · Working knowledge of Python and Julia
- High-performance parallel computing using Linux server
- Website content creation and development using Markdown and Jekyll
- Using git/GitHub for version control and remote collaborations
- Fluent in spoken and written German; communicate effectively in spoken and written Spanish

#### Grants

**Macrosystems Biology, NEON-Enabled Science** (National Science Foundation; \$536,800)
Role: senior personnel, co-writer of grant 2019-2024

# **Publications and presentations**

### **Publications (for full list see Google Scholar)**

- Eight first-authored publications in Science of the Total Environment, Global Ecology and Biogeography, Ecography, Biology Letters, Oikos, and Functional Ecology
- Two publications first-authored by undergraduates whom I mentored, in Ecology and Oecologia
- Twelve other co-authored publications in journals including Science of the Total Environment,
